

Ignis AI Labs: Code of Conduct

Effective Date: 2026-07-10

Version: 1.2

Last Updated: 2026-07-10

At Ignis AI Labs, we're building a community of forward-thinking individuals committed to creating a more decentralized ecosystem for the world. This Code of Conduct establishes the standards of behavior expected from all community members and NFT holders.

Our Shared Vision

We are a centralized group of individuals building a decentralized future. Our community brings together elite minds who genuinely care about decentralization's promise and are committed to action rather than rhetoric. Together, we develop technologies that can systematically replace centralized structures that currently dominate our economic, social, and political landscapes.

Core Principles

1. Commitment to Decentralization

- ▲ Actively contribute to our mission of building decentralized technologies
- ▲ Support initiatives that promote financial sovereignty and individual autonomy
- ▲ Share knowledge and insights that advance our collective understanding
- ▲ Participate in the development and refinement of our tools and services

2. Integrity and Respect

- ▲ Treat all community members with respect and dignity
- ▲ Engage in honest, ethical interactions
- ▲ Maintain professionalism in all communications
- ▲ Respect diversity of opinion, background, and experience

3. Mutual Confidentiality and Trust

- ▲ Honor our community mutual NDA - protect both Ignis and fellow members' confidential information
- ▲ Safeguard all internal communications, proprietary information, and member-shared innovations
- ▲ Never share trading strategies, technical details, business plans, or member projects outside our community
- ▲ Respect the intellectual property and innovations that members share in confidence
- ▲ Create a safe space where ideas can be shared without fear of misappropriation
- ▲ Build trust by protecting others' information as fiercely as your own

4. Responsible Trading

- ▲ Use our tools and information responsibly
- ▲ Never engage in market manipulation or illegal trading activities
- ▲ Do not misrepresent our tools' capabilities or results to others
- ▲ Exercise appropriate risk management in your trading activities

5. Collaborative Empowerment

- ▲ Actively seek win-win situations with fellow community members
- ▲ Foster collaboration over competition within our ecosystem
- ▲ Share insights and knowledge that benefit the collective
- ▲ Connect members who could benefit from each other's expertise
- ▲ Provide constructive feedback that empowers others to succeed
- ▲ Celebrate and support the achievements of fellow members
- ▲ Build together, not just alongside each other

6. Alignment with Community Vision

- ▲ Support our collective goals of building decentralized infrastructure
- ▲ Maintain alignment with our philosophical foundation and approach
- ▲ Contribute to the community in ways that leverage your unique skills and perspectives
- ▲ Uphold the values of innovation, autonomy, and equitable opportunity

Community Standards and Accountability

Living Our Values Together

We believe in creating a high-trust environment where innovation flourishes through mutual respect and genuine collaboration. Every member contributes to this culture by:

- ▲ Protecting the collective trust we've built
- ▲ Actively empowering fellow members
- ▲ Upholding our mutual NDA with integrity
- ▲ Building genuine partnerships based on shared success

Community Separation Process

We value every member of our community. However, violations of our mutual trust or misalignment with our collaborative values may require action:

1. **Minor Issues:** Open dialogue and opportunity to remedy
2. **Clear Violations:** Immediate action to protect the community
3. **Serious Breaches:** Legal action may be pursued by both Ignis and affected members

For Trust Violations:

- ▲ Breach of mutual NDA or IP theft results in immediate revocation of access to Ignis community surfaces and Elite-gated features — access may be refused or restricted on any platform component Ignis controls
- ▲ The Ignis Elite NFT remains in the member's on-chain custody; expulsion does not automatically involve a repurchase
- ▲ Potential legal action for damages
- ▲ Community notification (respecting privacy laws)

For Misalignment:

- ▲ Respectful dialogue about realignment
- ▲ Fair separation process if necessary — access to Elite community surfaces is discontinued while the NFT remains in the member's custody
- ▲ Where Ignis considers it in the community's interest and has the resources to do so, Ignis may offer to repurchase the NFT as part of the separation — at its sole discretion, on terms set at the time of the offer, never as an obligation or entitlement
- ▲ Confidential handling of specific reasons

Our goal is to maintain a thriving, high-trust community where everyone can innovate fearlessly.

Prohibited Behaviors

The following actions violate our community trust and will result in immediate action:

Zero Tolerance Violations:

- ▲ Breach of our mutual NDA - sharing Ignis or member confidential information
- ▲ Theft or misappropriation of member intellectual property
- ▲ Sharing member project details, strategies, or innovations without consent
- ▲ Exploitation of trust for personal gain at community expense
- ▲ Manipulating, or attempting to manipulate, the value of the ecosystem or its assets
- ▲ Draining or extracting value from the ecosystem at the community's expense

Serious Violations:

- ▲ Harassment, discrimination, or abusive behavior toward community members
- ▲ Deliberate misuse of our tools or services
- ▲ Fraudulent activities or misrepresentation
- ▲ Attempts to reverse-engineer or copy proprietary technology (Ignis or member)
- ▲ Creating multiple accounts to circumvent rules or restrictions
- ▲ Malicious attacks on our infrastructure or community
- ▲ Undermining collaborative efforts through bad faith competition
- ▲ Any illegal activities

Trust Breaches:

- ▲ Using shared knowledge to compete rather than collaborate
- ▲ Failing to respect IP boundaries in collaborative projects
- ▲ Breaking confidentiality even after leaving the community

Reporting Concerns

If you witness violations of this Code of Conduct or have concerns about community alignment, please report them to:

- 🔺 Email: community@ignislabs.ai
- 🔺 Discord: Direct message to any administrator or moderator

All reports will be handled confidentially and addressed promptly.

Our Shared Commitment

Ignis Promises to You

- 🔺 Protect your confidential information and innovations
- 🔺 Facilitate meaningful connections and collaborations
- 🔺 Build with you, not just for you
- 🔺 Maintain the highest standards of trust and integrity
- 🔺 Create opportunities for collective success

Your Commitment to the Community

- 🔺 Honor the mutual NDA with all members
- 🔺 Seek collaborative solutions over competitive ones
- 🔺 Protect and empower your fellow members
- 🔺 Build trust through consistent, ethical actions
- 🔺 Contribute to our culture of innovation and mutual success

Commitment to Evolution

This Code of Conduct is a living document that evolves with our community's needs and values. We welcome feedback and suggestions that strengthen our collaborative culture.

By holding the Ignis Elite NFT, you join a community built on mutual trust, shared success, and genuine collaboration. Together, we're not just building a decentralized future - we're creating a new model for how communities can thrive through trust and mutual empowerment.

Ignite. Empower. Thrive. Together.
